

EVERY CARD ON SHOW. ANY CARD OUT IN SECONDS.

PITLANE is a 3D-printed wall rack for carded die-cast cars. One 35 cm rack holds 6 cards in stepped rows, so every name stays readable. It comes in two models, and each one comes in a right-hand and a left-hand version. Hang one of each back to back and you get a 12-car centrepiece.

The pitch (30 seconds): "Collectors keep their best cars carded, then hide them in boxes or crush them on peg hooks. PITLANE puts six cards on a 35 cm rail, each row stepped forward so every name shows. On SWING, every card has its own door: swing it out, swap the card, swing it shut, and lift any shelf off its pin to clean it. On SLIDE, every card has its own lane: just slide it in from the side. Add a mirrored left rack and the wall holds twelve."

SWING twin (right + left): one door open on each side. CAD render, cards shown as blanks.

SLIDE twin: cards slide in from the right on one rack and from the left on the other.

THE RANGE

PITLANE SWING (6 cars)

One 35 cm wall mount (20 mm wide) with 6 hinge pins. Each of the 6 ledges drops onto its own pin. Swing it out to load. Lift 15.5 mm to take it off. It stops at closed and opens to 135°.

PITLANE SLIDE (6 cars)

A one-piece rack with no moving parts. Every ledge has a solid end stop, and the card slides into the 1.8 mm slot from the open end. The lowest-cost way to display 6 cards.

TWIN = right + left (12 cars)

A mirrored left-hand rack hangs back to back with the right one, half a row (27.5 mm) lower. The shelves alternate, so opening one side never touches the other.

WHY IT WINS

- **Grab one, leave the rest:** on hook displays you unhook the cards in front first. On PITLANE each card has its own door (SWING) or its own lane (SLIDE).
- **Names stay readable:** the rows step out 4.6 mm, and a low front lip with chamfered corner posts keeps the card title clear.
- **Nothing falls off:** the wall mount is one solid piece with the pins built in. There are no clips to come loose while you hang it.
- **Built for real prints:** every part prints without supports. The pins have a chamfered root for strength.

MARKET

Adult collectors now drive the die-cast market worldwide (an estimated 58% of revenue, a \$4.2–5.8 billion market growing 5–6% a year). India's collector scene is young and growing fast: mainline cars sell for roughly ₹200–450 each online, and collectors who keep cars **carded** have few wall options made for cards.

COMPETITION AND PRICES IN INDIA (OCT 2026)

Product	What it does	Price	PITLANE advantage
3D-printed card hooks (Etsy India)	Static hooks; cards hang flat, one behind another	₹277–302	Stepped rows, every name visible, each card on its own
Wall-mount 1:64 stands (direct sellers)	Printed stands for loose cars, packs of 12–48	₹550–1,690	Made for <i>carded</i> cars
Modular 3D-printed wall case (Etsy India)	4 cars per module (≈ ₹415 per car)	₹1,658+	6 cars from ₹799 (SLIDE, ₹133 per car)
Display STL files (Etsy India)	Print-at-home files	₹1,188	All PITLANE files for ₹499

SWOT

Strengths

- Two models at two price points, from one design
- A one-piece wall mount: nothing comes loose while you hang it
- Ledges come off for cleaning and can be replaced or sold as spares
- Right + left twin: a symmetric 12-car wall feature

Weaknesses

- Fits standard mainline cards only (~105 × 165 mm, blister ≤ 42 mm)
- Cards on the top rows stand above the 35 cm rack
- SLIDE needs about 11 cm of free wall on its open side to load a card
- The newest pin chamfer and 20 mm wall mount are not yet test-printed

Opportunities

- STL sales: zero marginal cost
- Colour editions (orange track, black and white, a two-colour twin)
- Spare and colour-swap ledges for SWING
- Hobby-shop wall displays (B2B), Matchbox and Mini GT variants

Threats

- Cheap static hooks at ₹277–302
- Copycats on file marketplaces
- Trademark: never use “Hot Wheels” as your brand, only “fits Hot Wheels® cards”
- Pins can snap if the ledges are forced (offer spare ledges and wall mounts)

WHO BUYS IT

- **Adult carded collectors** (18–40, metro and Tier-1 cities) with 20–200 cards: SWING and the twins.
- **Parents and gift buyers:** SLIDE at ₹799 is an easy gift (Diwali and Christmas, Oct–Dec).
- **Makers** with their own 3D printer: the STL pack.

COST TO MAKE (ESTIMATE, IN RUPEES)

Item	SLIDE 6	SWING 6	SWING twin 12	Basis
Filament (PLA+ at ₹1,500/kg)	₹198	₹225	₹450	From the STL files: 132 / 150 / 300 g printed (70% of fully solid)
Electricity	₹13	₹15	₹30	150 W printer, ₹8/kWh, about 12 g/h: 11 / 12.5 / 25 h of printing
Failed-print allowance (15%)	₹32	₹36	₹72	Reprints, nozzle wear
Box, screws + wall plugs, label	₹60	₹60	₹80	The 35 cm part fits a standard courier box
Total cost	≈ ₹305	≈ ₹340	≈ ₹630	Excludes your time and courier (about ₹80–120 within India)

RECOMMENDED PRICES (INR)

SLIDE · 6 cars ₹799 One-piece rack, right- or left-hand. ₹133 per car.	SWING · 6 cars ₹1,199 Wall mount + 6 lift-off ledges. Launch offer ₹999.	BEST VALUE SWING twin · 12 ₹2,199 Right + left, ₹183 per car. SLIDE twin ₹1,449.	STL files / spares ₹499 All models, print at home (launch ₹399). Spare ledge ₹99, or 3 for ₹249.
--	--	--	--

Why these prices: static hooks sell for ₹277–302 and a 4-car case for ₹1,658. SLIDE takes the gift and entry slot at ₹799. SWING is the premium functional product, and the twin is the hero offer. Sold direct (Instagram or WhatsApp, paid by UPI), SWING leaves about **₹750** after cost and courier, and the SWING twin about **₹1,450**. On Amazon or Flipkart, with about 20% in fees, SWING leaves about **₹520**. Don't go below ₹999 for SWING or ₹699 for SLIDE: it starts to look like a cheap hook. **Free shipping on orders of ₹999 and up;** ₹79 below that.

GO-TO-MARKET PLAN (INDIA)

- Week 0–2:** test-print the SWING twin. Film a 15-second Reel of one door swinging out and a ledge lifting off, plus a SLIDE card gliding in. Take photos of the twin on a real wall.
- Launch:** sell direct on Instagram and WhatsApp with UPI payment. Post in Hot Wheels collector groups on Facebook and WhatsApp. Give 3–5 local collectors and YouTubers a free twin for honest reviews.
- Marketplaces:** Amazon.in and Flipkart (SLIDE as the entry listing, SWING twin as the hero), Meesho (no commission), Etsy India (STL files and export orders).
- Meta ads:** ₹300–500/day, ages 18–40, metro and Tier-1 cities, interests: Hot Wheels, die-cast, Matchbox, car culture. Test the 5 posters for a week, keep the 2 with the cheapest clicks, and retarget profile visitors with the twin ad. Push hardest from October to December.
- Listing titles:** "PITLANE SWING: Swing-Out Wall Rack for 6 Carded 1:64 Die-cast Cars, fits Hot Wheels® & Matchbox® mainline cards, right or left hand" and "PITLANE SLIDE: 6-Card Slide-In Wall Rack".

NAME

PITLANE: every card gets its own pit box, and the wall mount is the pit wall. The model names say what each one does: **SWING** doors swing out, **SLIDE** cards slide in. The orange stripe nods to the orange track. Before you register a name, check trademark and domain availability (India: the IP India trademark search, classes 20 and 28).
