

SlideRack Desk: one base, two racks

A 3-card or 5-card rack drops into the same universal stand. Cards slide in from the side; swap the whole rack in a second.

The 3-card rack (front) and the 5-card rack (back), each on the same universal base.

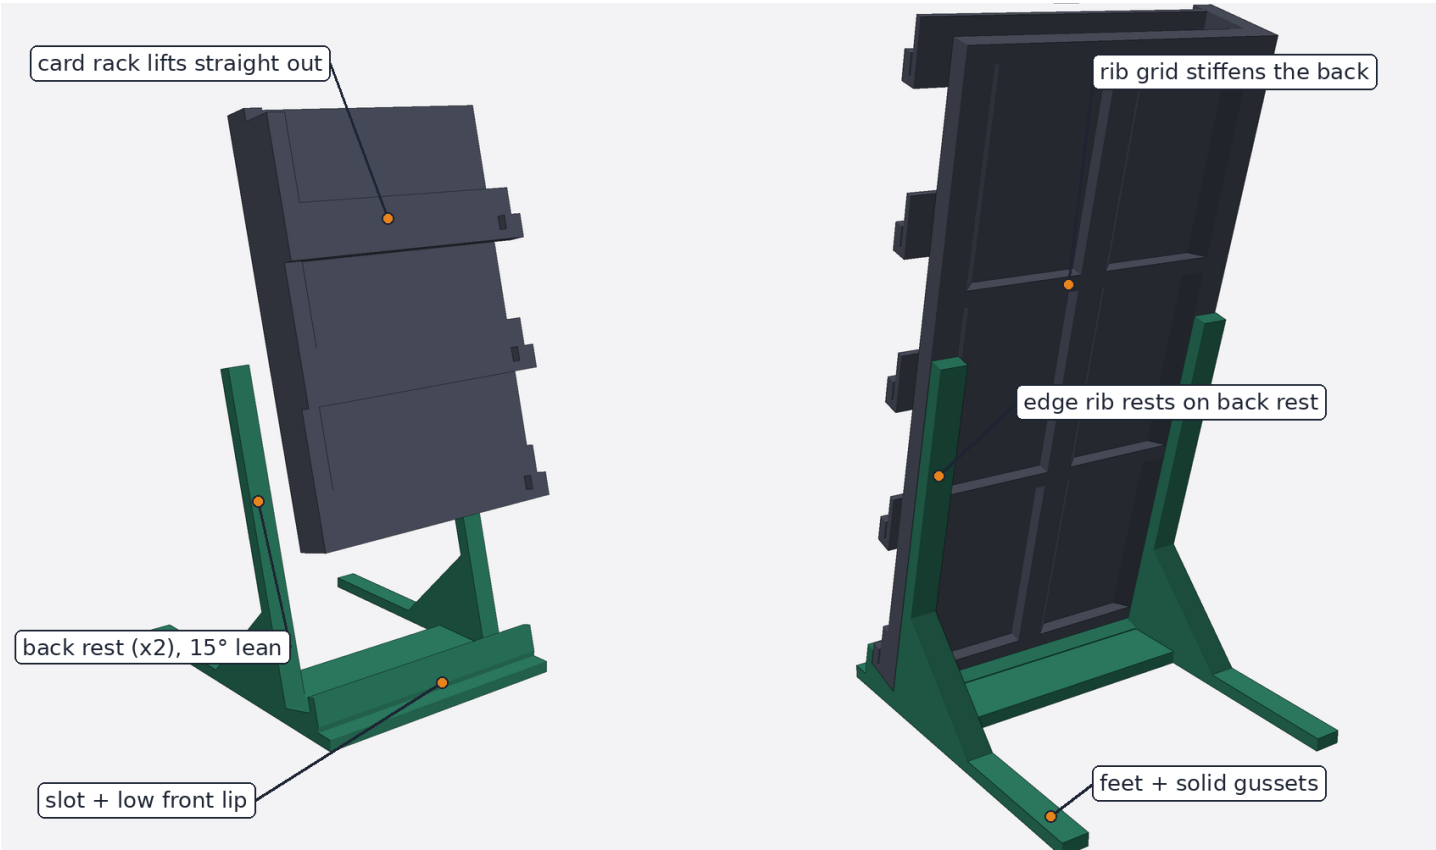

Why collectors want it

- Interchangeable. One base takes either rack. Buy a second rack, rotate a themed set, and store the spare rack flat.
- Side loading. Each ledge is open at one end. Cards slide in and stop at a solid wall, so nothing has to be opened.
- Stable by design. Leaning back 15°, a fully loaded stand tips only at 26.7° (3-card) and 20.8° (5-card) forward.
- Clean and simple. The base copies a proven picture-frame-holder shape. Both parts print without supports.

The range

Product	What you get	Price
Tabletop Set 3	universal base + 3-card rack	₹799
Tabletop Set 5	universal base + 5-card rack	₹999
Collector Combo	universal base + 3-card + 5-card racks	₹1,349
Extra rack	3-card or 5-card rack for your base	₹549 / ₹749

Design

Left: the rack lifts straight out of the universal base. Right: the rib grid on the rack back sits on the base’s two back rests.

Design details

- Card rack. The same ledges as the wall rack (55 mm pitch, 4.6 mm step, 10 mm corner supports) on a 3 mm panel with a solid stop wall at one end and an open end at the other. A grid of 5 mm ribs stiffens the back.
- Universal base. A slot square to the card face with a low front lip; two 10 × 6 mm back rests at 15°; two feet whose gussets follow the back rests down to the floor. The slot sits on the table with no gap underneath.
- One base, two racks. Both racks share the same bottom edge and edge ribs, so the base for the 3-card and the 5-card rack is the same part.

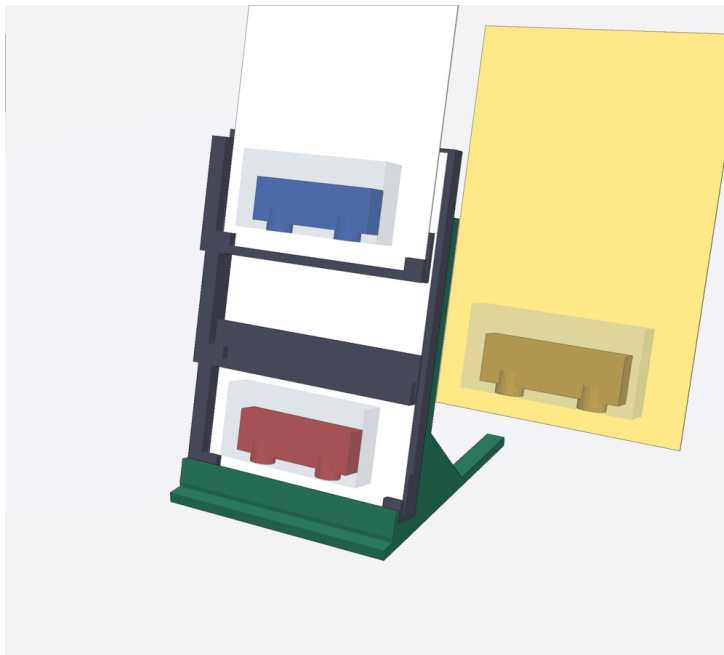

Base side view: the slot sits on the table, and the gussets run from each back rest down to its foot.

Specification	3-card set	5-card set
Standing size (W × D × H)	119 × 141 × 175 mm	119 × 141 × 250 mm
Printed mass	232 g	298 g
Tip angle, loaded (fwd / back)	26.7° / 51.0°	20.8° / 36.5°
Print	rack on its side; base upright	no supports

How it works

Load a card: slide it in from the side

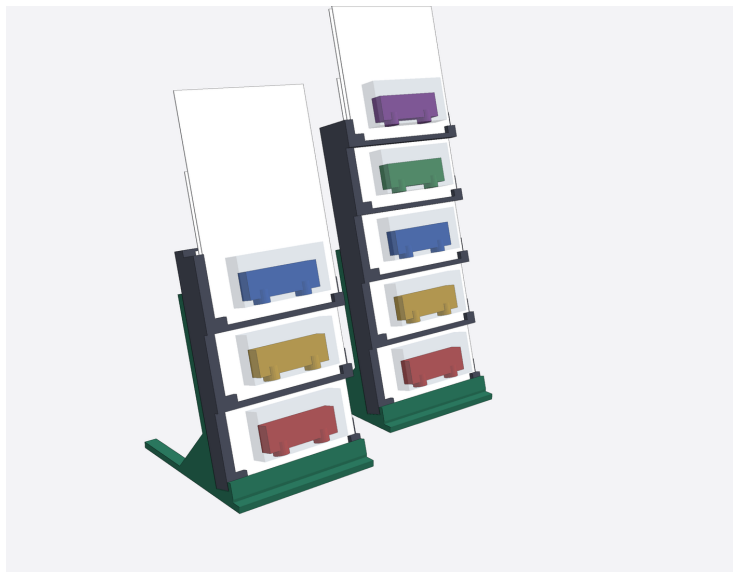

1. Hold the card upright at the open end of a ledge.
2. Slide it into the groove; the 10 mm corner supports keep it upright.
3. Push until it stops at the solid wall. The card is held along its whole bottom edge and leans on the card behind.

To remove a card, slide it back out the same way.

Swap racks in one second

The rack simply rests in the base: in the slot at the bottom, against the two back rests behind. Lift it out and drop in the other rack. No screws, no clips.

- 3-card rack: small desks, gifts, a monthly favourites line-up.
- 5-card rack: a series or theme on one stand.
- Spare rack: stores flat in a drawer, cards still loaded.

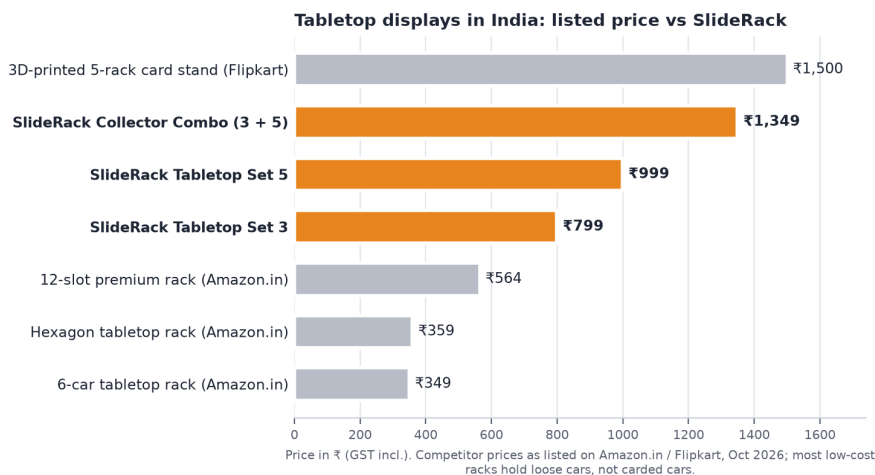

Verified before printing

- Both racks sit in the same base without interference, and the two base designs are identical.
- No card touches the rack or the base, and every card's side-sliding path is clear on both racks.
- Stability was checked with a full load of cars (30 g car + 10 g card per slot), with tip angles computed from the centre of mass.

Indian market and pricing

Where it fits

- A desk-and-shelf collector segment. Indian collectors buy from online diecast stores and meet through Instagram communities and local meets. Desk displays are popular for gifts and rotating favourites.
- Current choices. Tabletop racks on Amazon.in cost ₹349–₹564, but most hold loose cars, not carded ones. A 3D-printed 5-rack card stand lists at ₹1,500 on Flipkart.
- SlideRack Desk undercuts that printed stand (₹999 for 5 cards). It adds side loading, an interchangeable rack and verified stability.

Pricing and margin per unit

Product	Price (incl. 18% GST)	Print time*	Unit cost*	Profit direct (D2C)	Profit on Amazon / Flipkart
Tabletop Set 3 (base + 3-card rack)	₹799	9.1 h	₹390	₹171 (25%)	₹67 (10%)
Tabletop Set 5 (base + 5-card rack)	₹999	11.8 h	₹490	₹237 (28%)	₹107 (13%)
Collector Combo (base + 3 + 5 racks)	₹1,349	17.3 h	₹723	₹293 (26%)	₹118 (10%)
Extra 3-card rack	₹549	5.5 h	₹233	₹121 (26%)	₹50 (11%)
Extra 5-card rack	₹749	8.2 h	₹333	₹187 (29%)	₹89 (14%)

*Model assumptions: PLA at ₹900/kg (Indian retail ₹699–₹965/kg); printed mass 75 % of the solid model (3 walls, 15 % infill); 25 g/h print rate; machine cost ₹12/h (power + wear); finishing ₹20/part; 10 % waste allowance; packaging ₹30 and shipping ₹70 per order (add-ons ship free with a main item); payment gateway 2 % (D2C) or 15 % all-in marketplace fees; GST 18 % (HSN 3926 under GST 2.0). Profit is after GST, fees, shipping and unit cost.

How to sell it

- Instagram + WhatsApp (D2C): short reels of a card sliding in and the 3-second swap; a WhatsApp catalogue for orders. This is where Indian collectors already buy and trade, e.g. the Diecast Collective India crews.
- Amazon.in and Flipkart: search reach for gift buyers. List as "display for 1:64 carded cars". Do not put a car brand in the product name; use it only as a compatibility note.
- Diecast retailers as resellers: Toy Collectors India, Indian Diecast Hub, Zoomsters, Daily Diecast. Bundle a stand with a car purchase, or offer a store display unit.
- Collector meets and expos: live demos sell a side-loading display better than photos; take pre-orders on the spot.
- Upsell path: start with Set 3 (₹799), then add an extra rack (₹749 for 5 cards), or buy the Collector Combo (₹1,349).
