CARBON 6 CUSTOMIZATION

3D PRINTED IN BANGALORE BY
PI.XL 3D PRINTING

AERO ADD-ON · VW POLO 6R / 6C HATCHBACK

DUCKTAIL ROOF SPOILER

A full-width roof spoiler shaped to the Polo's roof and tailgate, with end fins that wrap both rear pillars. Printed in four sections, locked with hidden bow-tie keys and finished in gloss black or your car's colour.

1300 MM WIDE · GLOSS BLACK

01
MADE FOR THE POLO
Contoured to the 6R / 6C roof line, with fins that wrap the rear pillars.

02
SOLID 4-PIECE BUILD
Four one-piece sections from our 420 × 420 × 500 mm large-format printer. No hollow shell.

03
BOW-TIE LOCKED
Six hidden bow-tie keys lock the sections into one rigid part.

04
TAPE-ON FITTING
Bonds with 3M VHB automotive tape. No drilling, no holes in your car.

FINISHES ○ GLOSS BLACK ◐ BODY COLOUR ○ PRIMER

MATERIAL	PETG or ASA
FINISH	Primer, gloss black or colour-matched paint
WEIGHT	About 2–2.5 kg painted
FITTING	3M VHB automotive tape, no drilling

THE JOINT

FOUR PIECES. SIX BOW-TIES.

A 1.3 m spoiler is too big for one print, so we print it in four equal sections. Every seam is locked by two bow-tie (double-dovetail) keys set into the hidden underside, with structural adhesive across the whole joint face.

The keys sit flush with the underside, under the mounting tape. On top, the seams are filled, primed and painted, so the finished spoiler shows one clean surface.

HOW IT'S MADE

01 PRINT
Four sections, each printed in one go.

02 LOCK
Sections bonded and locked with six bow-tie keys.

03 FINISH
Seams filled, then primed and painted in your colour.

04 FIT
Taped on with 3M VHB. Leave 72 hours before a wash.
